

Alexander Aidun

Enterprise AI Product, Operations & Adoption Leader

New York, NY | 917-282-1668 | bobuel@gmail.com | linkedin.com/in/aaidun | aydoon.com | github.com/bobuel

EXECUTIVE PROFILE

Enterprise AI product and adoption leader who designs the operating systems around AI: functional and cost operations, internal products, agentic workflows, learning, evaluation, and peer enablement. Currently helps operate a 1,500-employee AI environment at Automattic; previously led four AI initiatives at Dremio and scaled Dremio University to 3,200+ users with +78 NPS. Hands-on builder who translates emerging model capability into useful, repeatable work.

CORE CAPABILITIES

Enterprise AI operations | AI product strategy | Agentic workflows | Systems design | AI adoption and behavior change | Product discovery | Learning and enablement | Executive AI advisory | Cross-functional leadership | Hands-on prototyping

Platforms and methods: ChatGPT, Claude, Codex, Claude Code, Cowork, MCP, Zapier, OpenAI, GitHub, Jira, and Pendo

PROFESSIONAL EXPERIENCE

AUTOMATTIC

March 2026 - Present

AI Adoption Manager | New York

- Help administer and operate ChatGPT (including Codex and Work) and Claude (including Cowork and Code) for 1,500 employees, with functional and cost responsibilities across the environment.
- Own product management for an internal AI Agent, AI Learning, LibreChat, and Slack-based agentic automations, connecting operations, workflows, guidance, and adoption.
- Design and deliver immersive enablement and publish 2-3 practical how-to articles per week to translate platform capability into repeatable work.
- Lead the AI Guides champion program and scope executive AI use cases as a personal AI product manager for C-suite leaders.

DREMIO

January 2024 - March 2026

Senior AI Product Manager and Director, Education & Documentation | Remote

- Led a four-initiative AI portfolio spanning an AI Agent, MCP Server, AI SQL Functions, and a Data Analyst chatbot; translated customer discovery into roadmap and workflow decisions.
- Partnered with Design and Engineering to prioritize use cases, product experience, and revenue potential across the portfolio.
- Owned the Documentation and Dremio University teams while driving cross-functional AI automation with Zapier, OpenAI, Jira, GitHub, and MCP.
- Separately, scaled Dremio University to 3,200+ users, 1,000+ badges, +78 NPS, and a 50% course completion rate within six months.

BRAZE

November 2022 - January 2024

Senior Manager, Partner Education | Remote

- Led global partner education strategy, staffing, and programming across small, medium, and global strategic partners, including Accenture and Deloitte.
- Introduced generative AI and prompt engineering to replace live mock-session testing and accelerate content development.

EARLIER LEADERSHIP EXPERIENCE

ARRIKTO

September 2021 - August 2022

Global Director, Education | Remote

- Owned global customer and employee education strategy, staffing, and delivery for a data science and MLOps startup.
- Reached a 32% weekly course completion rate in six months, with more than 750 registrants and 1,400 enrollments.

WORKFUSION

January 2021 - August 2021

Director, Product Enablement, Education & Documentation | New York, NY

- Led distributed Documentation, Education, and Enablement functions across the United States, Belarus, Poland, and India, managing managers, writers, developers, and enablement staff.
- Connected product functionality to technical documentation, self-service hands-on learning, and coordinated enablement across a global operating model.

QUBOLE

December 2015 - December 2020

Global Director, Education Services & Technical Publications (2020); Global Director, Education Services (2015 - 2020) | New York, NY

- Owned external customer education, employee technical onboarding, partner enablement and certification, and technical publications.
- Developed paid education services packages, including a largest engagement of \$300K, and led a media producer, designer, and eight course developers.
- Pioneered in-product onboarding, education, help-center content, and telemetry with Pendo; partnered cross-functionally on employee development programs.

ADDITIONAL EXPERIENCE

MarketShare - Manager, Data Strategy | **Data Meaning** - Technical Lead | **MicroStrategy** - Education Consultant; Technical Support Engineer

SELECTED AI BUILDS

- **CertifyFast** - Product concept for turning authoritative source material into traceable job-task analysis and exam-development artifacts for expert review.
- **BloomGPT** and **Bloom Quiz Builder** - Turned a 1,000+ use signal into a source-grounded assessment workflow with teacher checkpoints and structured output.
- **Retrieval Guard** - Experimental Python toolkit for retrieval regression testing and structurally similar near-miss filtering before context reaches an LLM or agent.

EDUCATION & SERVICE

Cornell University, School of Engineering - Information Science, Systems and Technology

Becket Chimney Corners YMCA - Alumni Council / Ambassador, January 2017 - Present
